## **UPDATE:** Clarification on PA authorized prescriptions

- ✓ Since November 4th, 2012, authorized prescriptions by PAs **HAVE NOT** required a physician's co-signature or a physician's name on a prescription.
- ✓ Please notify us if you encounter any difficulties with pharmacists in Massachusetts.
- ✓ MAPA is working with the Department of Public Health to re-issue a reminder to pharmacists of the authorization of PAs under current statute.
